

Change of the UL Certification Mark for the General-Purpose Inverter Option FR-BR Series

Thank you for your continued patronage of Mitsubishi Electric drive control products.
For the general-purpose inverter option FR-BR series, the UL certification mark design will be changed. This is just a design change, and the certified standards do not change. The products meet the UL standards regardless of this change. Along with this change, the layout of the markings (positions of the markings) in the rating plate of the product will be changed.

1. Products Affected

FR-BR-15K to 55K
FR-BR-H15K to H55K

2. Details of Change

The UL certification mark on the rating plate of the product will be changed as shown in the following table.

The change does not affect the quality, performance, or specifications of the product.

(Example) Rating plate of the FR-BR-15K

Before	After
	

3. Date of Change

The change will be applied to the products manufactured in June 2025 or later.

4. Product Identification

The change can be identified visually.
